

## QCESC Award Nominations

### **Description of Awards:**

The Quad City Engineering and Science Council (QCESC) established the awards originally in 1966. The purpose of the awards is to pay tribute and recognize Engineering, Science, and Technical Professionals whose exceptional achievements and outstanding contributions have made a lasting impact on technology, society, and their profession. This includes helping to promote and raise the awareness of Engineering and Science in our local communities.

The awards will be announced at the 50th Annual National Engineers Week Banquet on March 1, 2012.
